

(BLXT) RSC BR424 destinations pack (Train Simulator 2014)

Introduction

Originally RSC BR424 pack is including different destinations. A big part of them are not usable because they are not regular destinations or they are not reached by the S-Bahn Hannover. With this pack, new destinations will be added and other ones will be modified.

I don't know which font type is used on BR424 vehicles displays, but I used the much more similar fonts, I have on my computer.

How do I install the pack ?

Follow these steps:

- 1) Do a backup of 'BR424_digits.bin' (railworks/Assets/RSC/BR424Pack01/Elloks/BR424/Textures) and some texture files (destination_a.TgPcDx to destination_q.TgPcDx and track_blank.TgPcDx to track_S8.TgPcDx).
- 2) Copy the content of the folder 'BR424 destinations pack' to the assets folder of your railworks directory. Click OK when Windows is asking you to merge the folders and replace the files.
- 3) Clear Train Simulator's cache.
- 4) Restart the program. You will now be able to use the pack.

How do I use the pack ?

It's quite simple. When inserting BR424 vehicles (both engine and carriages) in the scenario editor, you can change their destination by double-clicking on them. In the window appearing on the right of the screen, you find their number which is preceded by two letters (carriages have only the second letter). The first letter set the "S" display and the second one sets the destination. If you change them, the destination blind also changes.

Here under are the table for both engine and carriages that are presenting you the destinations settings. A column is also showing, on which route each blind is used.

BR424 (engines and carriages)

Letter	Destination	S route	Letter	Destination	S route
A	S1		j	Bennemühlen	S4
B	S2		k	H. Flughafen	S5, S8
C	S3		l	Hamelu. Hannover	S5
D	S4		m	Paderborn Hbf	S5
E	S5		n	Bad Pyrmont u. Hannover	S5
F	S6		o	Celle	S6, S7
G	S7		p	Burgdorf	S7
H	S8		q	H.-Messe/Laatzen	S8
I	Blank "S" display		r	Blank display	
a	Hannover Hbf	all	s	-	
b	Minden (Westf)	S1	t	-	

c	Haste ü. Hannover/Weetzen	S1, S2	u	-	
d	Nienburg ü. Weetzen/Hannover	S2	v	-	
e	Neustadt am Rübenberge	S2	w	-	
f	Steinheim (Westf) ü. Hannover	S5	x	-	
g	Hannover ü. Lehrte	S3, S7	y	-	
h	Hildesheim ü. Lehrte	S3	z	-	
i	Hildesheim ü. Han./Sarstedt	S4			

Example

To display a train to Hannover Flughafen as S5, you will have to enter the following code for the engines: Ek and the following one for the carriages: k.
