Kurzanleitung:

Um den Schienenfahrzeugen bestimmte Containertypen zuzuweisen, fügt man am Ende der Schienenfahrzeugnummer unter Verwendung des Doppelpunkts (:) Containernummern hinzu.

Grundformat: [Schienenfahrzeugnummer] [Wagenbezeichnung] : [Containernummer]

BEISPIELE:

- EINZELNE CONTAINER: **338449620107!c30:03**
- Mehrere Container: **123456789!c20:02:12:13:42**

Aufschlüsselung der Komponenten:

338449620107 - Schienenfahrzeugnummer

!c30!/c20 - Bezeichnungscode/Typ des Container (variiert: !c20, !c30, !c40, !c45, etc.)

:03 - Containerkatalognummer aus diesem Katalog

Mehrere Container:

Für Wagen mit 2 bis 4 Ladungsplätzen verwenden Sie mehrere durch Doppelpunkte getrennte Nummern (z. B. :02:12:13:42).

Die meisten Gruppen sind so konzipiert, dass Container derselben Gruppe gut zusammenpassen.

Hinweis:

Die Wagenbezeichnung kann variieren oder nicht vorhanden sein. Der Schlüssel ist das Hinzufügen von :XX, wobei XX die Containernummer aus diesem Katalog ist.
