

Scenario 6: Raccogliatore nella valle di Bienna

Train: D145

MaxSpeed: 60 km/h

Service: Bienna-Surbo-Montesardo-Bienna

Information:

2002. You'll drive a D145 engine on a beautiful autumn evening to Surbo and Montesardo to pick up some cars, which you have to bring back up to Bienna and couple to a waiting freight train.

Signalling problems:

Watch out before you reach Surbo sidings: Vmax 20km/h. Main signal before reaching Bienna doesn't work.

Further informations:

- Please install all rolling stock from the „BasicRollingStock.pdf“ file. This rolling stock is used in this particular scenario and as well in future scenarios. Please note that you eventually need to download additional rolling stock for this scenario.
