

Special Scenario Pack: Servizio sulla D445

Engine: FS D445 Navetta

MaxSpeed: 130 km/h

Service: Special-Service

Informations:

2001. Today, divided in six different scenarios, your shift is to work on the D445 Navetta. In the morning you drive a group of ARAL managers with the historic TEE coaches from S.M. di Berna to Manduria and late afternoon back again. Before and in between you handle the official duties for today: for example a freight train from Porto Venerina to Breganzona or a freight train from Como to Ovarese ZI. It's february, winter, it's snowing, the sun shines or it's just overcast. A typical winter day. Be prepared for a hard working shift...

Signal issues:

Different signal issues today. Please read the instructions of every scenario very careful.

Additional informations:

- Please install all rolling stock from the „BasicRollingStock.pdf“ file. This rolling stock is used in all scenarios by me. Please note that eventually you need to download additional rolling stock for this scenario. -- See next page --
- This scenario pack contains six different scenarios.

Following additional rolling stock is needed in order to play this scenario-pack:
