

## Scenario 8 Manovre a Como

Payware version

Train: D245

MaxSpeed: 60 km/h

Service: Como S.G.

### **Information:**

You drive a D245 tonight. There's some shunting to do in Como before you can head off to Tricase. Bring back three cars from Tricase, that will be your last move tonight. The weather isn't nice at all, it's cold and snowing.

Known signal issues:

Exit Como S.G. (direction Tricase) twice. At the end of the scenario, there's a red signal which you can ignore.

The timetable is very tight in this scenario.

Following payware addons are necessary to run this scenario:
