

RPP – WG BR 203 (DR V100) – 204/293 PRESS

Content:

- 10 versions of the BR204 PRESS (Vmax = 100 km/h)
- 4 versions of the BR293 PRESS (Vmax = 80 km/h)
- German lettering in cab
- Couplingmodification for compatibility with 3link coupling

System requirements:

- [BR 203 \(ex DR V100\) voor Train Simulator 20xx](#)

Information:

This repaintpack contains 14 repaints for the V100 Ost (BR203) of Wilbur Graphics. Contained are 10 repaints of the BR204 in PRESS-Design with Vmax = 100 km/h and 4 repaints of the BR293 in PRESS-Design with Vmax = 100 km/h. The external textures and the lettering in cab are processed. A couplingmodification to make the locos compatible to German wagons is also contained in this package. Moreover the top speed of the BR293 repaints is lowered to 80 km/h to make the locos more realistic.

ATTENTION: The NS freightwagons made by Wilbur Graphics are NOT compatible to the repaints in this package. The reason is the Couplingmodification, to make the locos compatible to German wagons.

Installation:

1. Open „Utilities.exe“ in your Railworks-Directory and click on „Refresh“ in the „Package Manager“ tab.
2. Now click on „Install“ and select the attached .RWP file.
3. Wait until the installation is done.
4. Clear cache (in-game at „Settings -> Tools“)
5. Done! The locos are now ready to drive.

Selection in Scenarioeditor:

To use the locos in scenarioeditor, please activate the following providers.

- Wilbur Graphics\Rollend mat
- DTG\Academy

| • Couplingmodification | ©Supergamer11267 |

Special thanks:

Special thanks to Wilbur Graphics for the permission to include original files from his loco and the German lettering in cab. Thanks to everyone who helped creating this package and I hope, that I'll create more repaints for Wilbur Graphics' BR203.

Enjoy!

Jannik Scharff a.k.a Supergamer11267
