

# RPP – TTB Karlsruher Köpfe MA - drivable V2

## Content:

- TTB Bnrdf477 - mintgrün – drivable
- TTB Bnrdf477 - verkehrsrot – drivable
- All of these 2 wagons are available as an electric version and a diesel version

## System requirements:

- [TTB Szenariopaket München-Augsburg](#)
- [Koeblitzer Mountain Route V3](#)

## Information:

This freeware-pack contains 4 drivable Karlsruher Steuerwagen by TrainTeamBerlin. One mintgrüner Wagon and one verkehrsroter Wagon. Each of these wagons is available as an electric version and a diesel version. Neither textures have been edited or changed. The new .bin files access solely the drivable Karlsruher Steuerwagen from the „Koeblitzer Mountain Route V3“. Consequently, the „Koeblitzer Mountain Route V3“ is a compelling requirement for the functionality of this package.

## Installation:

1. Open the attached Installer „Install-RPP-TTB-Karlsruher-Steuerwagen-MA-fahrbar-V1“ with a double-click.
2. Attend the orders in the Installer und read everything thoroughly.
3. Wait until the Installer has finished the installation of the package.
4. Done, your wagons are now ready to drive.

### **Selection in Scenario-Editor:**

To be able to use the wagons in the Scenario-Editor, you need to activate the following providers.

- TrainTeamBerlin\TTB\_n-Wagen
- Supergamer11267\TTB\_Bnrdzf477\_mintgruen\_MA\_fahrbar
- Supergamer11267\TTB\_Bnrdzf477\_verkehrsrrot\_MA\_fahrbar
- SAD\GermanLocal

### **Copyright:**

- Included .bin files of the Driving Trailers ©Supergamer11267 und SAD
- Model, etc. (see Originalwagon ReadMe) ©TrainTeamBerlin
- Source files of the cab © SAD

### **Special thanks:**

Many thanks to Siegfried Derks – SAD, who gave me the permission to use the cab of a Karlsruher Steuerwagen included in his route to make the Karlsruher Steuerwagen by RW0381 drivable. Thanks to FabiaLP from the SteuerwagenSchmiede, too, for helping me creating the diesel versions of the wagons and some other modifications. Thanks to everyone who helped creating this package and probably I'm gonna make more AI-RailVehicles drivable in the future.

Enjoy!

Jannik Scharff a.k.a Supergamer11267
