

1510 11:04 Warrington - Shieldmuir

Installation

Install the *.rwp file from the archive by using the Utilities.exe from the main folder of your TS copy.

When you've opened the Utilities.exe, click *Package Manager*. Then click *Refresh*. Once the process of refreshing has finished, click *Install*. Select the *.rwp file and click *Open*.

The file should now be installed automatically. After that, you can start Train Simulator and play the scenario.

Description

On a freezy but sunny 22nd December you're in charge of the 11:04 mail service from Warrington to Shieldmuir.

At the moment you're slowing down in order to stop at a red signal on the approach to Preston. The delayed Northern Rail service to Hazel Grove has to clear the line before you can proceed.

This scenario uses the timings from the original December 2011 to May 2012 working timetable.

Required Add-Ons and Reskins

Payware

Steam

- [WCML Over Shap Route Add-On](#)
- [Settle to Carlisle Route Add-On](#)

Recommended Add-Ons

Armstrong Powerhouse

- [Lighting Effects Enhancement Pack](#)
- [Class 319/325 Sound Pack](#)

Advices (Sound Pack users only)

- At the start of the scenario (after closing the intro message) you'll have to acknowledge the DVD (Driver Vigilance Device). Otherwise the emergency brakes will apply.
- When accelerating, please note that wheel slip could occur. To solve this, try to apply less power or use the sander.
