1F52 17:55 London St Pancras - Broadstairs

Installation

Install the *.rwp file from the archive by using the Utilities.exe from the main folder of your TS copy.

When you've opened the Utilities.exe, click *Package Manager*. Then click *Refresh.* Once the process of refreshing is complete, click *Install*. Select the *.rwp file and click *Open*.

The file should be installed automatically now. After that, you can start Train Simulator and play the scenario.

Description

Drive Southeastern 395025 on an evening rush hour service from London St Pancras to Broadstairs as far as Faversham.

Due to software problems on some of the Javelin units, Southeastern has shorten some of the trains in order to free up units to limit train cancellations. Your train is one of these, originally booked to run with 12 coaches but now reduced in length to 6 coaches, to the dismay of passengers.

All AI as per 05/2016-12/2016 Working Timetable.

Required Add-Ons and Reskins
