

The Anglia Thump Railtour

Installation

Install the *.rwp file from the archive by using the Utilities.exe from the main folder of your TS copy.

When you've opened the Utilities.exe, click *Package Manager*. Then click *Refresh*. Once the process of refreshing is complete, click *Install*. Select the *.rwp file and click *Open*.

The file should be installed automatically now. After that, you can start Train Simulator and play the scenario.

Description

During a long time of preparation of two Thumper units, 1125 from the Mid Hants Railway & 1132 from the Dartmoor Railway, both have been modified so that they could get a mainline certificate. To celebrate this, both have been brought to Norfolk to work a railtour from Ipswich to Cambridge and back, visiting Lowestoft, Great Yarmouth and Norwich on the way before returning later in the evening.

In 3 parts of this scenario, you will take over between Lowestoft & Great Yarmouth, Great Yarmouth & Norwich and Norwich & Lowestoft.

All AI as per 05/2016-12/2016 Working Timetable. The scenario itself is fictional.
