2K18
09:04 Welwyn Garden City - Moorgate

Scenario for East Coast Main Line: London – Peterborough
(+ Moorgate Extension)

-

How to Install

This pack can be installed in two ways.

If you prefer (semi) automatic installation, launch the 'Utilities.exe' which can be found in the main directory of your TS copy. Go to 'Package Manager' and click 'Refresh' (the refreshing process may take a minute or two). Extract the *.rwp file supplied with this package to a place of your choice. Now, click the 'Open' button in the 'Package Manager' window and select the extracted file.

If you prefer installing content manually, go to the main directory of your TS copy, open the *.rwp file supplied with this package and extract the folders inside into your main TS directory.

Scenario Outline

On a pleasant June morning, drive a First Capital Connect 'PEP' duo forming the 09:04 Welwyn Garden City – Moorgate service.

I published the original version of this scenario way back in October 2016. In this updated version, timings have stayed the same, however I've set it in 2012 (instead of 2014 as in the original version) and next to the Enhancement Packs Armstrong Powerhouse have released since I first published this scenario, the fantastic (and free) Moorgate extension by Güterbahnhof has now been added to the requirements.

Year set: 2012
    Based on actual timetables from that year.

Duration: 50 mins
Difficulty: Hard

Traction: First Capital Connect 313031 & 313048
Route section covered: Welwyn Garden City → Moorgate

Requirements

Payware
