

RWA Railjet Advanced scenario pack for the Three Country Corner Route

This pack includes 15 scenarios revolving around the JustTrains RWA railjet advanced.

The pack includes scenarios revolving around freight services, regional and Intercity passenger services and of course railjet services.

All scenarios come with cinematic intros, html pop-ups and train and platform announcements (where applicable)

Whenever possible the scenarios follow the real-world timetables.

Required are four payware add-ons and a number of freeware add-ons.

A full list with download links is below.

I hope you will enjoy these scenarios.

Version 1.2

Required rolling stock

Please ensure you have the latest version of the above downloads installed!

Installation

1. Unzip the file to a place where you can find it easily (Best to use the desktop)
2. Go to your Train Simulator root folder (normally .../steam/steamapps/common/railworks) and open the “*utilities*” application
3. Click on “*package manager*”, then click on “*Install*” and search for the “*RJ_Scenarios.rwp*” file.
4. **IMPORTANT!** Once installed open Train Simulator and clear the cache!
5. **Enjoy!**

A special thank you to Railjet HD for his sounds!

Changelog:

V1.1: Some paths for the TTB rolling stock were wrong. This has been corrected

V1.2: Some wagons had missing sounds, this has been rectified.
