LTE BR189 200 "Chengdu – Tilburg – Rotterdam Express"

About the connection:

Since September 2016, the LTE-group has been operating the weekly Tilburg-Chengdu Shuttle for the CDIRS (Chengdu International Railway Services) on behalf of RTSB.

The LTE-group serves the section Tilburg (NL) to Malaszewicze (PL/BY) with just one change of driver, starting with LTE NL operating from Tilburg to Frankfurt/Oder. Then LTE PL drives the train with the support of Lotos to the Polish-Belarusian border to the Europort terminal Malaszewicze. There, the containers are loaded onto broad-gauge wagons and the Russian section (Belarus, Russia, Kazakhstan, China) begins.
