

1D54

10:23 Crewe - Chester

Scenario for North Wales Coastal

Installation

Extract the archive to a folder of your choice and install the .rwp file by using the Utilities.exe which can be found in the main folder of Train Simulator.

When you've opened the Utilities.exe, click 'Package Manager' and then 'Refresh'. Once the process is complete, click 'Install'. Select the .rwp file and click 'Open'.

The scenario will now be installed automatically. After that, you can start Train Simulator and play the scenario.

Description

Today you are driving Arriva Trains Wales 150280 on one of the daily shuttle services between Crewe and Chester. This will be a simple, non-stop run through a true winter wonderland!

Year: 2013

Duration: 25 Minutes

Difficulty: Easy

Traction: Arriva Trains Wales 150280

Track covered: Crewe → Chester

This scenario is based on the real timetables (winter 2013).

Required AddOns & Reskins

Payware
Steam: <ul style="list-style-type: none">➤ North Wales Coastal Route AddOn (included in the full Train Simulator 2018 package only)➤ WCML Trent Valley Route AddOn
Armstrong Powerhouse: <ul style="list-style-type: none">➤ Class 150/2 Diesel Multiple Unit Pack➤ Class 90/Mk3 DVT Pack*

* Owning this add-on is optional as the rolling stock included has just been placed in some sidings and is not used as part of any AI train. If you don't own this add-on, simply start the scenario as you would normally do and as soon as a message box complaining about missing rolling stock appears, press 'F2' on your keyboard and then click 'Cancel'. This should allow you to drive the scenario with everything still working as intended.
