

## [Seungwan] D 268 “Kalman Imre” Budapest-Keleti pu – Munchen Hbf (1996)

### Service Introduction:

D 268 is an express train (schnellzug) that operates from Budapest to Munchen. The departure time at Budapest is 21.25 in the evening and will arrive in Munchen Hbf at 06.03 the next morning. The journey will take approximately 8 hours and 38 minutes. This service is pulled by DB BR 103 from Salzburg Hbf until Munchen Hbf. Until this day, the name Kalman Imre is still exist with the same service from/to Budapest under the brand name “Euro Night”.

### Important Notes for this scenario:

1. This scenario is using 1996 timetable I got from fernbahn.de website. All long distance services are using real timetables except for the Regional, Sbahn, and Freight services.
2. I include train service names in the scenario so you will know which train is which.
3. Train formations are from vagonweb and fernbahn.de and I will try to make it as accurate as possible.
4. Maximum speed of this service is 140 km/h.
5. This scenario ends in Munchen Ost because according to the timetable, this train stops for 15 minutes before departing to Munchen Hbf. To avoid boredom from waiting for 15 minutes, I had to end the scenario there.
6. **Do not exceed 140 km/h or the desired AI interactions and timings won't be correct. My advice is to drive 10 km/h below speed limit every time.**
7. This scenario is created for the ones who enjoy early morning runs, prefers quick scenario and just want to relax, taking screenshots and enjoy the scenery.

## Scenario Requirements

Below are the lists of Payware and Freeware requirements for the scenario to work at its full potential. Each requirements have their link to make it easier for you to navigate and search for them. Remember, If you're swapping locos or consists, I'm not responsible for any error occurred in the scenario.

### 1. Payware Requirements:

- [DTG Munchen Rosenheim](#)
- [DTG BR 361](#)
- [AP Weather Enhancement](#)
- [TTB Scenario Packs 1 and 3](#)
- [Influenzo DB BR 420](#)
- [3Dzug NightJet](#)
- [VR DB BR 103 Orot](#)
- [VR DB BR 110 BIBe](#)
- [VR DB BR 110 Orot](#)
