

You drive a TEE extra service from Helsingør to Copenhagen. You have to hold the time and speed table strictly. Before you leave Copenhagen into the parking track: KBH H 26, you have to switch the junctions first and maybe ask permission to proceed with the Tab .

This is my first scenario. I made this scenario for my own pleasure and you need Northern Europe Renoveret to drive this.

When the scenario fails: try to lower your graphic settings.

Have fun and Greetings

Frans Hofstede
