

BR193 676-3

You need the ktrains 193 otherwise it doesnt work!!!!

<https://k-trains.com/en/produkt/vectron-class-193/>

1 = Installation: Install the .rwp file in Utilities.exe (find it in your railworks folder or open the .rwp with 7zip and put the files in your railworks folder)

2 = Copy the Geo files from

Assets\Kal000px\193pack01\RailVehicles\Electric\X4E 001

To

Assets\Kal000px\193pack01\RailVehicles\Electric\Akiem 193 676-3
