

In the third version of this repaint pack again some more liveries were added. For example, CD Cargo and METRANS liveries. To complete the series of SBBCI liveries, the last 2 missing special liveries were made and added into the pack. Cargounit Vectron 193 566 was also added, and further small changes to all other Vectrons were made.

Special thanks to Benjoe, who provided his 193 846 MGW-Service to this pack. Also, I want to thank Railcolor for the help regarding some special designs.

Thanks to everyone who helped create this big repaint pack, BR650/001, Giaramses, Aaron, Brackwedeboy, Karisma and Bernhard S. Thanks to Dominick Chaloupka for the approval of the repaint pack and to everyone who reported bugs or help to test the pack.

## Required add-ons payware and freeware:

[Vectron – class 193](#) + [Vectron class 193 - reskins](#)

## Installation:

Open the 7z file with a rar or zip program and move the folder to the Railworks folder. Confirm overwriting if necessary. The installation with utilities also works. At the end, do not forget to clear the TS cache. No moving GeoPcDx files needed.

**If you downloaded an update please uninstall the old version first.**

If you want to use the PreLoads, you need to have following add-ons.

[IRDF\\_RSI Zacns Kesselwagenrepaintpack Vol. 2\\*](#)

[IK-VI vR Sdggmrss Pack 2.0\\*](#)

[3DZUG KI Güterwagen alle packs\\*](#)

<https://railomanie.eu/filebase/index.php?entry/351-laaers-4363-repaint-pack/>

[vR Ealos-t 058 Repaint & Sound Pack\\*](#) + [vR Snps 719 Repaint Pack\\*](#) + [vR Shimmns Repaint Pack](#)

**\*Add-ons having a star: The Add-ons in the included their readme are also necessary.**

**These Add-ons are ONLY necessary for the PreLoads, the pack will also work without having these Add-ons.**

**Thanks for the interest in our repaint pack and have fun!**
