General information:

This is a career scenario with the real timetable of 2022 (see in the attachment below). To play this scenario, you just have to install the attached rwp file with Utilities in your Railworks folder. Perhaps you will have to clear the cache in your Train Simulator, if the scenario does not appear in the list after the installation.

Attention: On this ride, you need to register every stop by pressing the “T” key before you open the doors. If not, the timetable will not be working!

Enjoy!
