

Felberpass Szenario Package : BR120

This package consists of 4 szenarios for the Virtual Railroads BR120.

To play these szenarios you need the following:

The same rolling stock as for the standard szenarios on the Felberpass route (list included)

The VR BR120 in red and the Apmz/Bpmz waggons in IC colours.

Installation:

Simply install the rwp file using the package manager.

Many thanks to the people testing these szenarios:
