## Introduction

Hi everyone, today i would like to introduce my HLE28 repaint pack for Ktrain's BR186 TRAXX locomotive.

In this pack includes 16 variants of the SNCB HLE28 TRAXX Locomotive.

- HLE28 Gen 1 (2801, 2802, 2803) which has an offcentered Numbering.

- HLE28 Gen 3 which is the latest version of the SNCB.
- HLE28 locomotive that's being used.
- HLE2802 'Ludo' which has received a yellow front in 2022.
- HLE2805 'Stephenson' which also received a yellow front in 2022.
- HLE2808 'Feniks' which received a Yellow and multicolored front in 2022 after she was included in a serious fire.
- HLE2812 'Maria' has also received a yellow front in 2022.
- HE2812 'Maria XMAS' received a christmas tree, part of the 2022 Festive event.
- HLE2825 'Modalshift' Which she has been driving it to promote LINEAS.
- HLE2825 'B-Logistics' Which she has been driving it to promote LINEAS.

- HLE2843 'Kamilla E-Drivers' Which received a yellow front in 2022, and also promotes an eco-friendly way of transport.
- HLE2844 Leased White which used to be rented by SNCB for Benelux services.
- HLE2845 Leased White w/ green headlights which used to be rented by SNCB for Benelux services.
- HLE28 'E-Drivers' promotes an eco-friendly way of transport.
- HLE28 Railpool Leased which used to be rented by SNCB for Benelux services.

# Installation

Make sure you firstly got the [K-trains 186 Add-On](#) otherwise you are not able to install and use this repaint.

Secondly, put the Assets folder into your Railworks folder

And Lastly enjoy the repaints, note ; there are no preloads added into this, this shall happen soon.
