

“vR_Sggmrss“ Repaint Tutorial

Installation:

Unzip the package and use TS2022 Utilities to install the *.rpw file; alternatively, if you have the "7zFM.exe" programme, open the *.rpw file and extract the contents to the Railwors directory.

GeoPcDX file to be inserted:

All files.GeoPcDx

copy from the path of the green file and paste it into the path of the red file.

```
Assets\virtualRailroads\vR_Sggmrss\Frachtw\  
Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\PDEUR_VTG\  
Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDEUR_VTG_WA\  
Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDEUR_VTGa\  
Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDGTS\  
Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDHUP_WA\  
Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDHUPAC\
```

Or

click on the file Install_vR_Sggmrss_Pack.bat in the following path "assets\ virtualRailroads\
all necessary files will be copied automatically into the respective sub-directories.

Important: in order to use this template, you do not have to do anything other than activate
virtualRailroads\ vR_Sggmrss.

Have fun.

Pasquale D'Alessandro and Andrea Luigi Gobber

Installazione:

Decomprimere il pacchetto e utilizzate Utilities di TS2022 per installare il file *.rpw; in alternativa, se avete il programma "7zFM.exe" aprite il file *.rpw ed estraete il contenuto nella directory di Railwors.

GeoPcDX file da inserire:

Tutti i files.GeoPcDx

copia dal percorso del file verde e incollalo nel percorso del file rosso.

Assets\virtualRailroads\vR_Sggmrss\Frachtw\

Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDEUR_VTG\

Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDEUR_VTG_WA\

Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDEUR_VTGa\

Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDGTS\

Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDHUP_WA\

Assets\ virtualRailroads\vR_Sggmrss\ Frachtw\ PDHUPAC\

Oppure

cliccare sul file Install_vR_Sggmrss_Pack.bat presente nel seguente percorso "assets\virtualRailroads\": tutti i files necessari saranno copiati automaticamente nelle rispettive sub directory.

Importante: per poter utilizzare questo modello, non si deve fare nient'altro che attivare

virtualRailroads\vR_Sggmrss.

Buon divertimento.

Pasquale D'Alessandro e Andrea Luigi Gobber
