REPAINT INSTALLATION

For decompression, I recommend the program 7-zip Download (7-zip.org)

For those who bought the programme from WW - DB Sdggmrss (virtual-railroads.de)

proceed as follows:

1. Unzip "Pack_WWW_Sdggmrss_738.rwp" into any folder;
2. Using Utilities.exe, install the file Pack_WW_Sdggmrss_738.rwp or unzip the RWP file and paste

Assets into the Railworks folder:

-> ... \ Steam \ SteamApps \ common \ railworks \

To make your task easier I created the following file "Install_Pack.bat" click on it and all necessary files will be copied automatically to

-> ... \ Assets \ WaggonWerkstatt\ WW_Sdggmrss_738_T3000\

IMPORTANT: Enable the "WaggonWerkstatt" providers.

Have fun.
